

# DARK PHOENIX

## PREMIUM FORMAT™ FIGURE INSTRUCTION SHEET

Hook your left hand around the neck of the phoenix head.

Hook your right hand on the phoenix wing on the right side of the base. Be careful not to grab or apply pressure to any flame parts that are fragile in nature.

While holding the head and right wing of the phoenix, lift the base straight up and out of the box.

**Important note: Never lift the base out of the box by only tugging or pulling on the plastic bag that it comes wrapped in. Base must be lifted out as instructed above.**
